Advisory for Indian Students

In light of some queries received, Embassy of India, Tashkent, would like to clarify that there is no restriction with regard to Indian students desirous of studying medicine in Uzbekistan. India and Uzbekistan have identified education as an important area of cooperation. Nevertheless, students need to be mindful of the National Medical Commission (NMC) guidelines and advisories issued by the Embassy of India from time to time.

The Official Spokesperson of the Ministry of External Affairs also spoke on this issue. He highlighted the need for Indian students to familiarise themselves with NMC guidelines and not be misled by unscrupulous agents in India and Uzbekistan.

Indian students also need to be mindful about ensuring regular clinical training while pursuing medical education in Uzbekistan in compliance with the NMC guidelines.
